

Start by going to [canton.beanstack.org](https://canton.beanstack.org). This is what you should see:

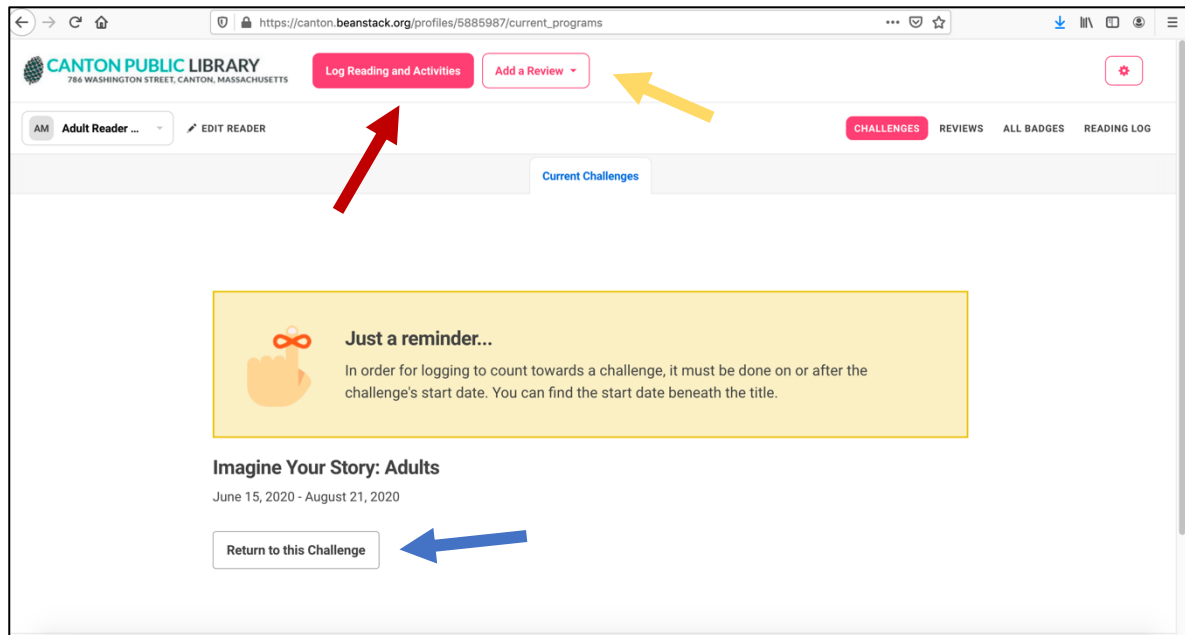

- If you or someone in your family has already signed up for Beanstack, click “Sign In” (blue arrow).
- If your family is registering for a library reading challenge online for the first time, click “Register an Individual or Family” (red arrow).

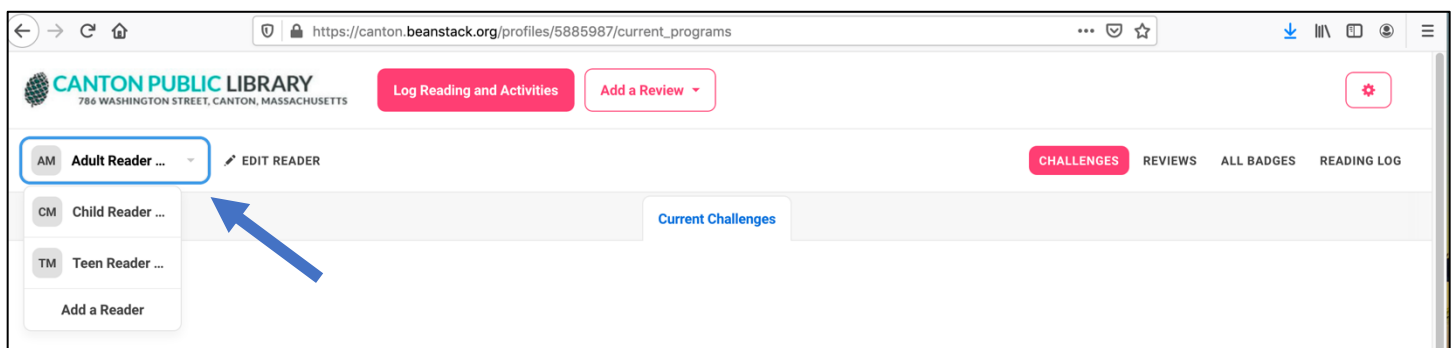

Choose who you'd like to register as readers. Remember, the library has challenges with unique prizes for everyone—kids, teens, and adults!

- Keep adding readers until everyone in your family has a profile!

You'll see all the challenges each reader can participate in here. After June 15, you'll be able to enter the challenges and start recording your reading, earning badges and raffle tickets, and entering to win prizes!

- The blue arrow is where you can take a look at the challenge, and after June 15, you'll click here to enter!
- The red arrow is where you'll log your reading!
- The yellow arrow is where you can submit reviews. Kids can submit pictures!

You can switch between reader profiles, or add a new reader to your account, here.

As always, you can contact the Canton Public Library if you have any questions about Beanstack or summer reading, want to participate in some of our summer programs, or need book recommendations or help accessing any of our materials!
